

CarwashAssure™

Avoid costly disruptions to operate at peak efficiency and prevent business shutdown

CarwashAssure provides real time monitoring and notifications of your car wash facilities to avoid costly equipment failures and disruptions to your business.

Receive immediate alerts

Real-time notifications for all of your locations, enabling you to stay ahead of issues and avoid costly, unplanned service calls.

24/7 Monitoring

24/7 monitoring of car wash ambient temperature and bay door status using cutting-edge wireless sensors across all of your locations.

Avoid business shutdown

Ensure car wash uptime and customer satisfaction while safeguarding revenue.

Seamless, real-time visibility to all of your sites

Access performance reports, robust insights and historical data from your smart devices.
